

TOPIC

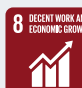

EXPLAINED

UN SDG

ENVIRONMENT

<p>Emissions to air</p>	<p>Innovative technology for monitoring and reducing emissions. Contributing to a more sustainable future for the maritime industry.</p>	  
<p>Energy consumption</p>	<p>Developing fuel-efficient vessels and low-energy operations. Providing affordable LPG and petrochemicals to customers.</p>	  
<p>Spills to sea</p>	<p>Avoiding oil spills and managing waste.</p>	 
<p>Recycling</p>	<p>Maximizing vessel lifespan and treating the vessels in compliance with regulations and conventions when recycling.</p>	 

SOCIAL

<p>Community engagement</p>	<p>Providing access to LPG as a clean source of energy and ammonia as a potent fertilizer. Supporting the communities where we operate.</p>	  
<p>Health and safety</p>	<p>Working systematically to ensure the health, fitness and safety for all crew and employees, both at work and at home.</p>	
<p>Employee relations</p>	<p>Providing good working conditions and fair salaries that reflect individual qualifications, regardless of gender. Recruiting, educating and retaining a skilled workforce.</p>	  
<p>Diversity and inclusion</p>	<p>Managing "happy ships" with happy, motivated and proactive employees. Encouraging diversity and inclusion at work and at home.</p>	 

GOVERNANCE

<p>Governance and compliance</p>	<p>Complying with all relevant laws and regulations.</p>	 
<p>Anti-bribery and anti-corruption</p>	<p>Mitigating corruption and bribery in all forms. Upholding business integrity in the maritime industry.</p>	 
<p>Economic performance and benefits</p>	<p>Generating sustainable economic value for our stakeholders.</p>
